

National Healthcare Supply Chain Week (October 7-13, 2018)

Celebrate National Healthcare Supply Chain Week this year by Rolling out the red carpet for your Materials Management Department and honor them for the role they play in delivering safe, high quality care throughout the healthcare industry.

A great way to show appreciation is to send them to the Annual CAHPMM conference in Shell Beach where they can learn the latest trends and giving them the opportunity for growth and networking.

Warmest Regards,

Heidi Sweeney

CAHPMM President
